Facility/Company Website www.motorola.com			

^{*} If you are applying for multiple facilities, you must call 1-888-339-PTRK(7875)

Why do we need this information?

EPA needs background information on your facility to evaluate your application.

What do you need to do?

- Provide background information on your facility. Identify your environmental requirements.

1	What do you do or make at your facility?	Semiconductor Devices
2	List the North American Industrial Classification System (NAICS) codes that you use to classify business at your facility.	NAICS 334413
3	Does your company meet the Small Business Administration definition of a small business for your sector?	☐ Yes
1	How many employees (full-time equivalents) currently work at your facility? If you checked "Yes" in question 3	Fewer than 50
	and have fewer than 50 employees at your facility, then you are considered a "small facility" by the Performance	☐ 50-99
	Track Program.	□ 100-499
		☐ 500-1,000
		☑ More than 1,000
5	Complete the Environmental Requirements Checklist on pages 32-38 of the instructions and enclose it with your	

application.

Section A, continued

Optional: Is there anything else you would like to tell us about your facility? Do you participate in other voluntary programs at the local, tribal, State, or Federal level?

The Motorola Inc., facility participates in the following voluntary programs:
TCEQ Clean Industries Program
EPA's Climate Wise Program
EPA Waste Wise Program
OSHA's VPP Star Program

Why do we need this information?

Facilities need to have an operating Environmental Management System (EMS) that meets certain requirements.

What do you need to do?

- Confirm that your EMS meets the Performance Track requirements.
- Tell us if you have completed a self-assessment or have had a third-party assessment of your EMS.

Read the EMS requirements on page 9-12 of instructions. Tell us if your EMS meets these requirements for:

1	Environmental policy	⊠ Yes	∐ No	
2	Planning —		□No	
3	Implementing and operation ————————————————————————————————————	⊠ Yes	□No	
4	Checking and corrective action ————————————————————————————————————	⊠ Yes	□No	
5	Management review ——————	⊠ Yes	□No	
6	Have you done a comprehensive review of all activities conducted at your facility that could impact the environment? (i.e., have you done an aspect analysis?)	⊠ Yes	□ No	
7	Have you classified your aspects based on their potential harm to the environment, on community concerns, and/or on other objective factors? (i.e., have you determined your significant aspects?)	⊠ Yes	□No	
8	When did you last update your aspect analysis? (mo/yr)	Septemb	per 2002	
9	Have you completed at least one EMS cycle (plan-do-check-act)?	⊠ Yes	□ No	
10	Did this cycle include both an EMS and a compliance audit?	⊠ Yes	□No	
11	Have you completed an objective self-assessment or third-party assessment of your EMS?	⊠ Yes	□No	
	If yes, what method of EMS assessment did you use?	Self-asse	essment	Third-party assessment
		☐ GEM	I	
		□ СЕМІ	P	Other
		☐ Other	r	

Why do we need this information?

Facilities need to show that they are committed to improving their environmental performance. This means that you can describe past achievements and will make future commitments.

What do you need to do?

Refer to the Environmental Performance Table in the instructions to answer questions 1 and 2.

Part 1 You must report past achievements for at least two environmental aspects, and you must choose these aspects from the Environmental Performance Table on pages 29-31 of the instructions. Please quantify each of your aspects using the units listed for that aspect in the Environmental PTrack Information Hotline at 1-888-339-PTRK.

Note to small facilities: If you are a small facility, you must report past achievements for only one environmental aspect.

First achievement

What aspect have you selected from the Table on page 29-31?	Total Water Use		
What units are you using to quantify this aspect? (See Table, page 29-31.)	Gallons		
	PAST	CURRENT	
3 List the past annual quantity of the aspect (from two years ago) and the current annual quantity of the aspect (from the most recent year for which you have data).	522,690,000	406,846,000	
4 What are the years for which you are reporting these quantities?	2000	2002	
5 Estimate your past normalizing factor (Page 18 of the Instructions will help you calculate this.)	1.2	1.0	
6 What is your normalizing factor based on (e.g., production, employment)?	Based on wafer production (square inches of wafers produced) in the Dan Noble Center (only factory functioning by end of 2002). Does not include production of closed factories. Total water use represents water used by the Dan Noble Center only.		
7 You reported an improvement in the quantity of the aspect in Question 3. How did you achieve this improvement?	The total amount of water used by the facility was reduced by approximately 22%. This was achieved by the expansion of the site's water reclaim system and increased water reduction projects. New streams added to the reclaim system included water from over 40 chemical decomposition oxidizers, and water from wafer cleaning processes. The reclaimed water is used in cooling towers or fed back into the process. Water reduction projects included reduction of water used for wet cleans rinsing, adjustment of deionized water flow regulators, and shut off of non-critical water streams throughout the site.		

Section C, continued

Second achievement

What aspect have you selected from the Table on page 29-31?	Hazardous Solid Waste		
What units are you using to quantify this aspect? (See Table, page 29-31.)	Tons		
	PAST	CURRENT	
3 List the past annual quantity of the aspect (from two years ago) and the current annual quantity of the aspect (from the most recent year for which you have data).	903	423	
What are the years for which you are reporting these quantities?	2000	2002	
5 Estimate your past normalizing factor (Page 18 of the Instructions will help you calculate this.)	1.8	1.0	
6 What is your normalizing factor based on (e.g., production, employment)?	Normalizing factor based on production (square inches of wafers produced) of the facility.		
7 You reported an improvement in the quantity of the aspect in Question 3. How did you achieve this improvement?	Total quantity of hazardous waste was reduced by 53%. This was accomplished through process modifications targeted at reducing the largest waste streams including photoresists and other solvents, as well as the reduction in container weight treated as hazardous waste. The latter was accomplished through the substitution of cubic yard boxes for the 30-gallon fiber drums previously used as hazardous waste containers, thereby reducing the container weight handled as hazardous waste.		

Part 2 You must make future commitments for at least four environmental aspects, and you must choose these aspects from the Environmental Performance Table on pages 29-31 of the Instructions. The aspects you select for your future commitments should be related to the objectives and targets in your EMS. Where possible, they also should be identified as having a significant environmental impact in your EMS. No more than two of your aspects can be from the same environmental category. If you're not sure how your objectives and targets fit into our aspects or whether your aspects are significant, call the PTrack Information Hotline at 1-888-339-PTRK.

Once you have chosen your four environmental aspects, then fill in all the necessary information for these aspects in the tables on pages 7-10 of this form. Please quantify each of your aspects using the units listed for that aspect in the Environmental Performance Table. Each table that you must fill in corresponds to one of the environmental aspects you have chosen.

We will assume that your performance commitments are based on a constant production or employment level. If you would like to base your commitment on changing production or employment, please fill out optional questions 6a and 6b.

Note to small facilities: If you are a small facility, you must report future commitments for only two environmental aspects.

Section C, continued

First commitment

1	What aspect have you selected from the Table on pages 29-31?	Total Water Use		
2	What units are you using to quantify this aspect?	Gallons		
<i>3a</i>	Is this aspect considered significant in your EMS?	⊠ Yes □ No		
<i>3b</i>	If no, please explain why you believe this aspect should be included as a performance commitment.			
		CURRENT	FUTURE	
4	List the current annual quantity of the aspect and the annual quantity you are committing to achieve by the end of the third year of your participation in Performance Track.	406,846,000	387,768,000	
5	What are the years for which you are reporting these quantities?	2002	2005	
6a	(Optional) What is your future normalizing factor. (Page 21 of the Instructions will help you calculate this.)	1	1.3	
<i>6b</i>	(Optional) What is your normalizing factor based on (e.g., production, employment)?	Based on wafer production (square inches of wafers produced) of the Dan Noble Center (only factory functioning by end of 2002). Will not include production of closed factories. Total water use represents water used by the Dan Noble Center only.		
7	You committed to an improvement in the quantity of this aspect in Question 4. How do you plan to achieve this improvement?	Total water use will be decreased by approximately 19 million gallons (28% normalized) savings. This will be achieved through continued expansion of the water reclaim system including addition of streams from test wafer hoods, chemical decomposition oxidizers, and ultra pure water production system, as well as implementation of reduced rinse recipes throughout factory.		
8a	Are you subject to Federal, State, tribal, or local regulatory requirements for this aspect?	☐ Yes ⊠ No		
8b	If yes, please list those requirements, including the quantitative limits and compliance deadlines that apply to you. Explain how your commitment exceeds requirements.			

Section C, continued

Second commitment

1	What aspect have you selected from the Table on pages 29-31?	Total Solid Waste	
2	What units are you using to quantify this aspect?	tons	
<i>3a</i>	Is this aspect considered significant in your EMS?	⊠ Yes □ No	
<i>3b</i>	If no, please explain why you believe this aspect should be included as a performance commitment.		
		CURRENT	FUTURE
4	List the current annual quantity of the aspect and the annual quantity you are committing to achieve by the end of the third year of your participation in Performance Track.	1930	1730
5	What are the years for which you are reporting these quantities?	2002	2005
6а	(Optional) What is your future normalizing factor. (Page 21 of the Instructions will help you calculate this.)	1	1.3
6b	(Optional) What is your normalizing factor based on (e.g., production, employment)?	Normalizing factor based on producti produced) of the facility.	on (square inches of wafers
7	You committed to an improvement in the quantity of this aspect in Question 4. How do you plan to achieve this improvement?	Total solid waste will be reduced through improved recycle and reuse programs on-site, including reuse/ resale of obsolete tools, increased awareness of non-hazardous waste (cardboard, paper, aluminum) and precious metals recycle programs, and increased scrap metal recycling.	
8a	Are you subject to Federal, State, tribal, or local regulatory requirements for this aspect?	⊠ Yes □ No	
8b	If yes, please list those requirements, including the quantitative limits and compliance deadlines that apply to you. Explain how your commitment exceeds requirements.	No quantitative limits	

Section C, continued

Third commitment

1	What aspect have you selected from the Table on pages 29-31?	Hazardous Solid Waste	
2	What units are you using to quantify this aspect?	tons	
<i>3a</i>	Is this aspect considered significant in your EMS?	⊠ Yes □ No	
<i>3b</i>	If no, please explain why you believe this aspect should be included as a performance commitment.		
		CURRENT	FUTURE
4	List the current annual quantity of the aspect and the annual quantity you are committing to achieve by the end of the third year of your participation in Performance Track.	423	375
5	What are the years for which you are reporting these quantities?	2002	2005
6а	(Optional) What is your future normalizing factor. (Page 21 of the Instructions will help you calculate this.)	1	1.3
6b	(Optional) What is your normalizing factor based on (e.g., production, employment)?	Normalizing factor based on producti produced) of the facility.	on (square inches of wafers
	You committed to an improvement in the quantity of this aspect in Question 4. How do you plan to achieve this improvement?	Continued investment in tools that use smaller amounts of chemicals, for example photo tracks and spray solvent tools. Continue to work with factory to identify and implement waste minimization and source reduction projects	
8a	Are you subject to Federal, State, tribal, or local regulatory requirements for this aspect?	⊠ Yes □ No	
8b	If yes, please list those requirements, including the quantitative limits and compliance deadlines that apply to you. Explain how your commitment exceeds requirements.	No quantitative limits	

Section C, continued

Fourth commitment

1	What aspect have you selected from the Table on pages 29-31?	Total Energy Use		
2	What units are you using to quantify this aspect?	Million kwH		
<i>3a</i>	Is this aspect considered significant in your EMS?	⊠ Yes □ No		
<i>3b</i>	If no, please explain why you believe this aspect should be included as a performance commitment.			
		CURRENT	FUTURE	
4	List the current annual quantity of the aspect and the annual quantity you are committing to achieve by the end of the third year of your participation in Performance Track.	217	210	
5	What are the years for which you are reporting these quantities?	2002	2005	
6a	(Optional) What is your future normalizing factor. (Page 21 of the Instructions will help you calculate this.)	1	1	
6b	(Optional) What is your normalizing factor based on (e.g., production, employment)?	Based on square footage of the Dan Noble Center and supporting areas (only factory functioning by end of 2002). Will not include square footage of closed factories and supporting areas. Total energy use represents energy used by the Dan Noble Center and supporting areas only.		
7	You committed to an improvement in the quantity of this aspect in Question 4. How do you plan to achieve this improvement?	Implement energy reduction projects to reduce energy use by 7 million kWh by 2005. Projects will include reduction in laminar air flow in clean room space, chiller optimization (meet cooling demands with minimum energy usage), and tool exhaust optimization (reduce gas cabinet and chemical destruction unit exhaust in factory)		
8a	Are you subject to Federal, State, tribal, or local regulatory requirements for this aspect?	☐ Yes ☐ No		
8b	If yes, please list those requirements, including the quantitative limits and compliance deadlines that apply to you. Explain how your commitment exceeds requirements.			

Why do we need this information?

Facilities need to demonstrate their commitment to public outreach and performance reporting. You should have appropriate mechanisms in place to identify community concerns, to communicate with the public, and to provide information on your environmental performance.

What do you need to do?

- Describe your approach to public outreach.
- List three references who are familiar with your facility.

Tell us about your public outreach and reporting.

1 How do you identify and respond to community concerns?

Community concerns are identified and responded to in several ways.

- Motorola has established a phone line to receive both internal and external calls (may be anonymous). Externally, the phone line, 996-4EHS (4347) is a vehicle by which the community may provide relevant communication regarding EHS to Motorola. This may include EHS related inquiries, concerns or comments. The number is published in the phone book.
- Motorola links senior-level Motorola's to various nonprofit community or agency boards to tap into community concerns.
- Motorola's public affairs team conducts regular community surveys to assess the community's areas of concern. These issues are directed to senior management to be addressed.
- Motorola's public affairs team and senior management monitor media coverage to assess community concerns, and directs these to senior management to be addressed.

Motorola uses its affiliations with community organizations and agency boards to communicate important matters through written correspondence.

The Motorola Ed Bluestein facility also maintains contact information of nearby community members. In cases where an important issue needs to be communicated, community members in close proximity to the site would be contacted directly.

2 How do you inform community members of important matters that affect them?

	OMB No. 2010-0032 Expiration Date: 06/30/03
3 How will you make the Performance Track Annual Performance Report available to the public?	☑ Website www.Motorola.com
r enormance report available to the public:	☐ Newspaper
	☐ Open Houses
	Other
	Published in the annual Global Corporate Citizenship report

Section D, continued

4	Are there any ongoing citizen suits against your facility?	☐ Yes	⊠ No
	If yes, describe briefly in the right-hand column.		

5 List references below

	Organization	Name	Phone number
Representative of a Community/ Citizen Group	Keep Austin Beautiful	Irene Guzman-Crill	512 974-3576
State/tribal/local regulator	Texas Commission on Environmental Quality Clean Texas Program	Larissa Peters	512 239-3766
Other community/local reference (e.g., emergency management official or business associate)	Travis County Local Emergency Planning Committee	Ron Buys	512 448-8331

On behalf of Motorola Inc., Ed Bluestein Facility [my facility],

Section E

Application and Participation Statement.

I certify that

I have read and agree to the terms and conditions for Application and Participation in the National Environmental Performance Track, as specified in the *National Environmental Performance Track Program Guide* and in the *Application Instructions*;

- I have personally examined and am familiar with the information contained in this Application, including the Environmental Requirements Checklist. The information contained in this Application is, to the best of my knowledge and based on reasonable inquiry, true, accurate, and complete, and I have no reason to believe the facility would not meet all program requirements:
- My facility has an environmental management system (EMS), as defined in the Performance Track EMS
 requirements, including systems to maintain compliance with all applicable Federal, State, tribal, and local
 environmental requirements in place at the facility, and the EMS will be maintained for the duration of the
 facility's participation in the program;
- My facility has conducted an objective assessment of its compliance with all Federal, State, tribal, and local
 environmental requirements, and the facility has corrected all identified instances of potential or actual
 noncompliance;
- Based on the foregoing compliance assessment and subsequent corrective actions (if any were necessary), my facility is, to the best of my knowledge and based on reasonable inquiry, currently in compliance with applicable Federal, State, tribal, and local environmental requirements.

I agree that EPA's decision whether to accept participants into or remove them from the National Environmental Performance Track is wholly discretionary, and I waive any right that may exist under any law to challenge EPA's acceptance or removal decision.

I am the senior facility manager and fully authorized to execute this statement on behalf of the corporation or other legal entity whose facility is applying to this program.

Signature/Date	
Printed Name/Title	Mr./Mrs./Ms./Dr. Mr. Todd McCay, P.E. Site ESIH Manager
Phone Number/E-mail	512 933 3812/ Todd.Mccay@Motorola.com
Facility Name	Motorola Inc., Ed Bluestein Facility
Facility Street Address	3501 Ed Bluestein Boulevard
City/State/Zip Code	Austin, Texas 78721

Paperwork Reduction Act Notice

The public reporting and recordkeeping burden for this collection of information is estimated to average 40 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the Director, Collection Strategies Division, U.S. Environmental Protection Agency (2822), 1200 Pennsylvania Ave., NW, Washington, D.C. 20460. Include the OMB control number in any correspondence. Do not send the completed form to this address.

Environmental Requirements Checklist

Use the Environmental Requirements Checklist to answer Question 5 in Section A, Tell us about your facility. This Checklist will help you identify the *major* Federal, State, tribal, and local environmental requirements that apply at your facility, but it is not an exhaustive list of all environmental requirements that may be applicable at your facility.

Fill in your facility information below and enclose the completed Checklist with your application.
